Education

09/2023 – Now	**Studying second year of Bachelor Degree in computer science** Institut supérieur de l'informatique Medenine, Tunisia
09/2022 - 06/2023	**Studied first year of Bachelor Degree in computer science** Faculte de science Monastir, Tunisia
09/2021 - 06/2022	**Computer science Baccalaureate degree with good mention** Lycée Technique Medenine, Tunisia

Formations and Competitions

21/04/2024	**Participated in the EcoGuardians Machine learning Workshop and competition by club IEEE** Ecole Supérieure des Sciences Appliquées et de la Technologie Gabes, Tunisia
29/02/2024	**Member of the team that won second place in problem solving competition by X-days ISIMG** Institut supérieur d'informatique et multimedia Gabes, Tunisia
02/12/2023	**Participated in introductory formation in robotics and electronics by AJST ISIMED club** Institut supérieur de l'informatique Medenine, Tunisia
19/11/2023	**Member of the team that won hackathon ISIMED web\mobile dev** Institut supérieur de l'informatique Medenine, Tunisia

Computer Science Skills

Python:

- Using python for problem solving, OOP programs, game development (PyGame), machine learning, neural network brain.

java and C sharp:

- Understanding the functionality and how java and C# works in advanced way and Working in several projects (swing, OOP programs, Unity).

JavaScript:

- Understanding the functionality and how JavaScript works in Web Development in advanced way.
- Advanced in working with canvas html5. Creating plugins to use it in web dev design to make it more stylish.
- Creating games with canvas html5.
- Working in several web dev projects using JavaScript advanced functions.
- Worked with Reactjs and Node js.

Frontend developer:

- Mastered html elements and capable of creating responsive and stylish sites with CSS.

Backend developer:

- I have good understanding about node js, php and SQL.
- Worked in web dev projects that used node js and php for backend.
- Worked with java projects that used SQL for backend.

Social Skills

Sense of Responsibility

Flexibility and Efficiency

Organization

Communication

Management of Time

Team Work

Fast Learner

Hobbies

Game Development

Web Development

Problem Solving

Problem Solving:

- Good understanding for algorithm problem solving and dynamic programming.
- Good record for problem solved using leetcode.com.
- My leetcode profile: https://leetcode.com/u/hmidihmidis

Machine learning:

- Worked in projects to control big data using python and create models to predict values.

AI:

- I start my journey with AI not long ago by creating small projects.
- Good Understanding in neural network and how AI programs works and created my own small neural network.
- Using my problem solving and machine learning skills helps me in AI domain.

Volunteering

12/2023 – Now	**Trainer for workshops in ICPC Club** **Institut supérieur de l'informatique** Medenine, Tunisia
11/2023 – Now	**Reporter, Vice president for ICPC Club** **Institut supérieur de l'informatique** Medenine, Tunisia
